Dear Parent/carer

We write to remind you that the use of aerosols in school is not permitted. We have a number of students who suffer from asthma and the use of aerosols of any nature in school can impact severely on their health and wellbeing.

The PE department have expressed concern that some students are bringing aerosol deodorants in to school to use after PE lessons. May we remind you that students are only allowed to use pump sprays or roll on deodorants and may also use the shower and washing facilities in the changing rooms after a PE lesson should they wish.

This term the Local Authority will be carrying out their annual health and safety inspection in the PE department. This will include a check on the management of pressurised aerosol products in school.

If your child is found with an aerosol product in school, this will be confiscated and can be collected at the end of the school day.

Once again, we thank you for your continued support in ensuring the safety and wellbeing of all our students in school.

Yours faithfully

Siân Dover
Head of School

Kath Jordan
Head of School
